

STARTING THE CAREER CYCLE

Career exploration is a lifelong process, with opportunities to explore, plan, prepare, and find new career paths at any point. *Ferguson's Career Guidance Center* provides essential resources for everyone—from students to career changers—to empower individuals throughout their professional lives.

EXPLORE

EXPLORE entire industries or specific professions through video interviews and in-depth articles. Take a career assessment to match your interests to potential careers.

Graduation is around the corner. What comes next? Starting a career? Going to school? It's time to explore your options. Take a career assessment and match your interests to different industries. What kind of education is needed? What kind of salary can you expect? Do the research.

FEATURES

- Browse Careers
- Research Industries
- Career Assessment
- Find a Career Path

PLAN your education to align with your career goals by using *Ferguson's* advice articles and school search databases. Consult our financial aid resources to navigate paying for education and training.

FEATURES

- School Search
- Educational Opportunities
- Financial Aid

Planning for education? Whether it's a four-year university or a specialized trade school, education can be expensive. Find financial aid or grants that match your specific needs. Browse educational opportunities in any type of school in any part of the country.

PLAN

FIND the experience you need or the job you desire using our Internships, Apprenticeships, and Job Postings tools.

Internships and apprenticeships can be secured at any point after graduation. Whether you continue in school or plan for professional life, find opportunities to build work experience with *Ferguson's Career Guidance Center*.

FEATURES

- Internships
- Apprenticeships
- Job Postings

PREPARE for your job search by consulting *Ferguson's* résumé and cover letter expertise and examples. Watch videos focused on interviewing and networking success.

FEATURES

- Networking
- Résumés & Cover Letters
- Interviewing
- Workplace Skills

Preparing for the workforce after graduation? Study workplace skills. Behavior on the job differs greatly from behavior at home or in school. Spend time practicing social behaviors and interviewing techniques that will put you in a good position to earn the job.
